## PROGRAM INFORMATION

Agency Name: **Step Up on Second Street, Inc.**

Type	0 days	1-3 days	4-5 days	Over 5 days	Average
Entry Timeliness	91	46	16	198	31.00
Exit Timeliness	67	21	12	180	40.00

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2016" was recorded on "April 9, 2016," then the report would calculate a 5 day lag time in recording data. The report groups the number of applications by program and has 5 buckets for the number of days an application has been lagging.

**HUD Policy:** Data entry should be current within 5 business days of intake, exit, and service provision.
