Income and Sources (4.2) at Annual Assessment	1	100.00%
Income and Sources (4.2) at Exit	89	70.63%

Fields with values over 5% errors.

Fields with values 5% or less.

Fields with no errors.

Error rate includes data not collected, missing information, client doesn't know and client refused options. A program should have less than a 5% error rate in order to ensure accurate data. Missing intake and exit data needs to be reviewed by staff on a regular basis. Any additional Data received from the client after enrollment, should be entered into the Homeless Management Information System (HMIS) within a timely manner.

HUD Policy: A 95% standard of completeness rate for all funded homeless projects should be established and expected. Programs should work toward ensuring that 95% of all required data elements for each client served are collected and entered correctly into the HMIS.

HMIS Data Quality Report Card

Sample Reporting Period 10/1/2020 to 9/30/2021

PROGRAM INFORMATION

Agency Name: **Family Assistance Program**

Type	0 days	1-3 days	4-5 days	Over 5 days	Average
Entry Timeliness	110	80	15	303	40.03
Exit Timeliness	29	35	9	123	41.31

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2016" was recorded on "April 9, 2016," then the report would calculate a 5 day lag time in recording data. The report groups the number of applications by program and has 5 buckets for the number of days an application has been lagging.

HUD Policy: Data entry should be current within 5 business days of intake, exit, and service provision.
