Missing intake and exit data need to be reviewed by staff on a regular basis. Any additional Data received from the client after enrollment, should be entered into the Homeless Management Information System (HMIS) within a timely manner.

HUD Policy: A 95% standard of completeness rate for all funded homeless projects should be established and expected. Programs should work toward ensuring that 95% of all required data elements for each client served are collected and entered correctly into the HMIS.

PROGRAM INFORMATION

Agency Name: **Family Services Association of Redlands**

Type	0 days	1-3 days	4-6 days	7-10 days	11+ days	Average
Entry Timeliness	152	130	62	25	4	2
Exit Timeliness	230	88	18	14	15	1

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2016" was recorded on "April 9, 2016," then the report would calculate a 5-day lag time in recording data. The report groups the number of applications by program and has 5 buckets for the number of days an application has been lagging.

HUD Policy: Data entry should be current within 5 business days of intake, exit, and service provision.
