Income and Sources (4.02) at Annual Assessment	1,327	99.92%
Income and Sources (4.02) at Exit	74	63.79%

Fields with values over 5% errors.
 Fields with values 5% or less.
 Fields with no errors.

Error rate includes data not collected, missing information, client does not know, and client refused options. A program should have less than a 5% error rate to ensure accurate data. Missing intake and exit data need to be reviewed by staff on a regular basis. Any additional Data received from the client after enrollment, should be entered into the Homeless Management Information System (HMIS) within a timely manner.

HUD Policy: A 95% standard of completeness rate for all funded homeless projects should be established and expected. Programs should work toward ensuring that 95% of all required data elements for each client served are collected and entered correctly into the HMIS.

PROGRAM INFORMATION

Agency Name: **Inland SoCal United Way**

Type	0 days	1-3 days	4-6 days	7-10 days	11+ days	Average
Entry Timeliness	2,863	25	5	2	89	3
Exit Timeliness	17	14	4	3	112	35

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2016" was recorded on "April 9, 2016," then the report would calculate a 5-day lag time in recording data. The report groups the number of applications by program and has 5 buckets for the number of days an application has been lagging.

HUD Policy: Data entry should be current within 5 business days of intake, exit, and service provision.
