In September 2007, the San Bernardino County Homeless Partnership (SBCHP) was formed to provide a more focused approach to our goal of ending homelessness within the County. The Partnership consists of city governments, community based organizations, faith-based organizations, educational institutes, non-profit organizations, private industry, and federal, state, and local government.

SBCHP was developed to promote a strong collaboration between agencies to direct the planning, development, and implementation of the County's 10-year-plan to end chronic homelessness. The Partnership meets on the third Wednesday of each month at the Behavioral Health Resource Center in Rialto. The Partnership facilitates better communication, planning, coordination, and cooperation among all entities that provide services and/or resources for the relief of homelessness in San Bernardino County.

We should receive the full amount going to 22 providers for 25 projects. There will be a full day workshop prior to contract to let everyone know what the expectations are. Carole Hammond will oversee the contracts. It still hasn't been determined if it is going to be cash flowed up front or reimbursement. It may be based on performance. Any interest earned will be reinvested back into programs but ICH has full control. If there is any redistribution of funds they may go to contingency programs. The new governor has proposed in the new budget similar funding. The funding might be less because there are more cities. They might pull the emergency shelter requirement.</li> </ul>
