PUBLIC COMMENTS	PRESENTER	ACTION/OUTCOME
		<ul style="list-style-type: none"> <li>Public Comment – no public comments</li> </ul>
DISCUSSION	PRESENTER	ACTION/OUTCOME
Approve the date of December 7, 2022, for the 2022 Homeless Summit	Tom Hernandez, Office of Homeless Services	<p>The Chair recognized Tom Hernandez, Mr. Hernandez gave a brief overview, history, and purpose of the Homeless Summit</p> <ul style="list-style-type: none"> <li>Motion made by Don Smith and second by Stephanie Bruce.</li> <li>Discussion ensued – Don Smith recommends having a virtual component to the Homeless Summit for those who are far away and might not be able to attend.</li> <li>A vote was taken on the original motion</li> <li>A roll call vote was taken. <ul style="list-style-type: none"> <li>Sixteen (16) members voted yes (Supervisor Baca, Erika Lewis-Huntley, Cassandra Searcy, Antoinette Jackson, Gerry Gutierrez, Shonie Perry, Stephanie Bruce, Martha Zepeda, Michael Knight, Maria Razo, Sharon Green, Don Smith, Jessica Alexander, Wendell Wilson, and Astrid Johnson).</li> <li>Absent from the vote were: Supervisor Rutherford, Jeff Drozd, Quinton Page, and Meghan Lloyd</li> </ul> </li> <li>The motion was approved</li> </ul>

Approve the Recommendations of the Grant Review Committee for the CoC Supplemental Unsheltered Application and the following rating and ranking of the CoC application projects:

Tom Hernandez,  
Office of Homeless  
Services

The Chair recused herself from this item and logged off due to a conflict of interest. The chair handed the meeting to the Vice Chair Martha Zepeda. The vice reminded ICH members that if they have a conflict of interest with this item to please log off – Antoinette Jackson from the City of Victorville recused herself from the item. A quorum was still in effect.

The vice chair recognized Tom Hernandez.

Mr. Hernandez recognized the Grant Review Committee (GRC) for their work on the annual application and the supplemental application. Mr. Hernandez also stated that the CoC annual application has been submitted.

- Tom Hernandez presented the Recommendations of the GRC for the CoC Supplemental Unsheltered Application, the rating, and ranking, of the application to the ICH members.

<b>Ranking</b>	<b>Agency</b>	<b>Project Type</b>	<b>Total Request</b>	<b>LOI Scoring</b>
1	City of Victorville	Wellness Center Wraparound Services	\$4,778,295.00	93
2	Operation Grace	Journey Home Youth Program	\$4,550,124.00	89.6
<b>Total Supplemental Funds: \$9,328,419.00</b>				

- Motion made by Stephanie Bruce and a second by Astrid Johnson.
- There was no further discussion on this item
- A vote was taken on the original motion
- A roll call vote was taken.
  - Thirteen (13) members voted yes (Kim Knaus, Erika Lewis-Huntley, Cassandra Searcy, Gerry Gutierrez, Shonie Perry, Stephanie Bruce, Martha Zepeda, Michael Knight, Maria Razo, Sharon Green, Don Smith, Wendell Wilson, and Astrid Johnson).
  - Two members recused themselves: Antoinette Jackson and Jessica Alexander
  - Absent from the vote were: Supervisor Rutherford, Jeff Drozd, Quinton Page, and Meghan Lloyd

The motion was approved

The Vice Chair instructed Claudia Doyle to reach out to the Chair and Antoinette Jackson to return to the meeting. The Vice Chair returned the meeting to the Chair

<b>Council Roundtable</b>	<b>PRESENTER</b>	<b>ACTION/OUTCOME</b>
		The Chair opened the floor to the ICH members for Council Roundtable.

Don Smith – Reminded everyone that the main CoC Supplemental Unsheltered Application was still being put together and that the application needed to be signed off by three people with lived experience and will be submitted by the 20<sup>th</sup> of October. Mr. Smith congratulated the new Chair and Vice Chair on their first meeting. Stated he is hoping for a much more open and engaging process with all the member that the members will show much more fidelity to statutory responsibilities going forward, both state and federal. That the chairs pay more attention to the interest and concerns of members and that the agenda will be an open process, set by the members and free of county executive veto power. Hope that reports are reestablished during the ICH meeting. Reengaging the CoC membership through the Homeless Provider Network as per the charter and spend more time honoring the charter to improve it and rebuild it. Mr. Smith requested to have the next items placed on the agenda for the next meeting: HHAP 3 and the \$750,000 initial disbursement. Asked Mr. Hernandez regarding the application for the rest of the HHAP 3 funds. Reminded that the HHAP 4 application has been released due Nov. 29. That it should be agendiced with public comment. Mr. Smith also asked for more transparency on the office of homeless service budget. Announced Kim Carter’s new book “Waking Up to My Purpose” and her appearance on Jennifer Hudson tv show.

Erika Lewis Huntley – the PITC had its first meeting yesterday, one of the primary discussion items was the survey tool itself, and questions. We want to ensure that we are asking the right questions. HUD has set questions that need to be asked, but we have the opportunity to ask our own CoC relevant questions. Although limited in questions the PITC Committee is reviewing the questions to ensure that we capture relevant data to assist all our organizations in developing effective strategies. It is also important to the committee that persons with lived experience also participate in the survey review process. The committee is reaching out to ICH partners to see if they have any thoughts or questions regarding the survey questions, please contact me by email or phone by the end of the month to give ITD time to include any other survey questions.

Jessica – Central Valley will not be meeting today, next meeting in November. Also thanked the City of San Bernardino’s Council member Calvin and Cassandra Searcy for organizing an event to assist displaced city residents today at 4pm. There will be a call for volunteers for those who would like to participate in the Homeless Summit planning.

Astrid Johnson – Recognized the HMIS team that is working with Clarity, they have been very helpful and supportive and she appreciates them.

Wendell Wilson – Requested from the Homeless Summit committee to consider having a speaker that would present about a successful project, how they got it and how it went since housing is a high priority.

Sharon Green – thanked the Chair and Vice Chair for going to the Desert regional Steering Committee to speak.

Don Smith – Recognized Martha for stepping up and taking care of the ESG issue.

<b>Adjournment</b>		<ul style="list-style-type: none"> <li>Being no further business, the meeting was adjourned at 10:00 a.m.</li> </ul>
<b>Next Meeting</b>		<p>The Next ICH Meeting will be held on:</p> <p style="text-align: center;"><b><u>ICH Meeting (Regular)</u></b>  <b><u>Wednesday, September 28, 2022</u></b>  <b><u>9:00 am – 11:00 am</u></b>  <b><u>Via Webex</u></b></p>

the CA-609 CoC		the Domestic Violence providers. They stated that they are still working on reviewing the plan and incorporating their recommendation, it will take several weeks but they will bring it back to ICH at a future meeting.
HOME Investment Partnerships American Rescue Plan Program Allocation Plan Overview	Melissa Mailloux, Mosaic Community Planning	<p>The Chair Jessica Alexander recognized Melissa Mailloux for the item.</p> <ul style="list-style-type: none"> <li>• A presentation was made by Melissa Mailloux from Mosaic Community Planning on the HOME Investment Partnerships American Rescue Plan Program Allocation Plan Overview</li> <li>• Questions regarding the presentation were answered <ul style="list-style-type: none"> <li>○ Melissa Mailloux stated that there will be more meetings regarding the HOME ARP process</li> <li>○ West Valley RSC, East Valley RSC, Central Valley RSC, Desert RSC, and Mountains invited Melissa Mailloux to their Regional Steering Committee meetings to gather input.</li> </ul> </li> <li>• The Vice Chair recommended to give agencies time to respond through email regarding the topic and after being able to review the question.</li> </ul>
<b>INFORMATION SHARING</b>	<b>PRESENTER</b>	<b>ACTION/OUTCOME</b>
Update on HMIS transition	Kristin Stevens, Office of Homeless Services	<p>Chair Jessica Alexander recognized Kristin Stevens to discuss this item.</p> <p>Kristin Stevens gave an update regarding the HMIS transition to Bit focus Clarity.</p> <ul style="list-style-type: none"> <li>• HMIS migration is complete – confirmed completed</li> <li>• Non-HUD services have been entered by the HMIS team and are available</li> <li>• OHS HIMIS Team continues to meet on a weekly basis with Bit Focus to work on gaps from the migration</li> <li>• Ecovia and Client Track will remain available to providers while OHS works on the migration gaps</li> </ul> <p>Mr. Smith acknowledged the work of the HMIS team and the hard work they have done.</p>
<b>COUNCIL ROUNDTABLE</b>	<b>PRESENTER</b>	<b>ACTION/OUTCOME</b>
		<p>The chair opened the Council Roundtable for comments by the ICH members.</p> <p>Kristin Stevens – Gave an update on the OHS and the move they had to make due to a fire in the building they were in. OHS is in a borrowed office now. With these recent events OHS is asking if the date for the Homeless Summit may be moved to give more time for planning and to be able to provide a great summit.</p> <p>Jessica Alexander –</p> <ul style="list-style-type: none"> <li>• Announced special ICH meeting on Nov 16 to go over HHAP round 4 and the Homeless Summit Date.</li> <li>• Announced that after Feb 28, 2023, ICH will go back to meeting in person, including all ICH committee's including the HPN, RSC and Youth Board. County Council explained that AB361 is effective only when there is a State of Emergency declared by the Governor or a local government agency. The current State of Emergency that Gov. Newsome had put in place is being rescinded effective Feb 28, 2023.</li> </ul>

- Announced the reactivation of the standing Health Care Committee. There has already been a great response. The Chairs would like the people who are seated to be from the regions and be active members, have background information and know-how to be effective on the committee. Committees will have 1 committee member from each region and health service providers from the county.
- Regarding the Coc committee, that is going to re-envision the C0C going forward – looking for 12 ad hoc committee members. 2 members from each region and some county representatives.
- CES Post work committee is set, and they will begin working with Dr. Leslie until the end of January.

Erika Lewis-Huntley – As the PITC planning committee reviews the survey question, there is still an opportunity to make modifications to some of the questions. We would like your feedback please contact Erika by the end of October. There will be a kickoff with city reps to provide background and support for upcoming count. The team is already ordering items for hygiene bags.

Don Smith –

- Regarding the PITC, the West Valley RSC invites Erika and Claudia to the meeting. He appreciated the notice that was sent out to the CoC regarding the Sheltered Count. He stated that the providers still have not received a breakdown of the sheltered count from last year based on location and provider to see what is being included in the count. Also asked for more demographic data on the sheltered count like unsheltered count in the report.
- He wanted to remind everyone that the Office of Homeless Services was specifically created to serve the San Bernardino County Homeless Partnership, and he would like to see the partnership play a more active role in oversight and guidance from the OHS, and be actively involved in the search for the new Chief and there should be an MOU between the C0C, ICH and the County as to the role and responsibilities and their role in serving the partnership. There has been over 2.4 million dollars in C0C funding over the last three years and have not been told how it has been spent. There is no mention of the C0C planning dollars and how it is being utilized.
- HUD put out information about a new opportunity with Harvard School of Government, regarding a special accelerator session on homeless prevention and rehousing and local CoC have an opportunity to participate. He will work with Tom to try and apply. Application due Nov. 18.

Tom Hernandez congratulated Dr. Joe Colletti and Philip Mangano for being appointed to the advisory committee of the California Interagency Council on Homelessness. They're voices will be heard by Cal ICH who has input on HCD funding and Business consumer services and housing agency. Also want to congratulate Mike Jones for being appointed to the California State Association of Counties, Homelessness Policy, and Solutions group, which is very important in policy development in counties. If you have input for them, please contact them to have our voices heard.

Martha Zepeda – provided clarification regarding on the role of the CoC in the recruitment and hiring process for the county dedicated position of the Chief of Homeless Services. Due to County recruitment processes, there may not

		<p>be an opportunity for input from the CoC.</p> <p>Don Smith – requested that the County consider allowing input form the ICH in what they are looking for in the Chief position and the role they play on serving the partnership.</p> <p>Sharon Green – agreed with Don Smith that there should be input form ICH for input on the recruitment.</p> <p>Wendell Wilson – made an appeal that the County plan have a specific plan or even a set aside for permanent housing in the mountain, or Barstow, or Morongo areas. It's been a long time since permanent housing has been considered in those areas.</p>
<b>Adjournment</b>		<ul style="list-style-type: none"> <li>Being no further business, the meeting was adjourned at 10:55 a.m.</li> </ul>
<b>Next Meeting</b>		<p>The Next ICH Meeting will be held on:</p> <p style="text-align: center;"><b><u>ICH Meeting (Regular)</u></b>  <b><u>Wednesday, January 25, 2023</u></b>  <b><u>9:00 am – 11:00 am</u></b>  <b><u>Via Webex</u></b></p>

*Mission Statement*

*The mission of the San Bernardino County Homeless Partnership is to provide a system of care that is inclusive, well planned, coordinated, and evaluated and is accessible to all who are homeless and those at-risk of becoming homeless.*

THE INTERAGENCY COUNCIL ON HOMELESSNESS MEETINGS ARE ACCESSIBLE TO PERSONS WITH DISABILITIES. IF ASSISTIVE LISTENING DEVICES OR OTHER AUXILIARY AIDS OR SERVICES ARE NEEDED IN ORDER TO PARTICIPATE IN THE PUBLIC MEETING, REQUESTS SHOULD BE MADE THROUGH THE OFFICE OF HOMELESS SERVICES AT LEAST THREE (3) BUSINESS DAYS PRIOR TO THE PARTNERSHIP MEETING. THE OFFICE OF HOMELESS SERVICES TELEPHONE NUMBER IS (909) 501-0610. <https://sbchp.sbcounty.gov/> AGENDA AND SUPPORTING DOCUMENTATION CAN BE OBTAINED BY CONTACTING OHS

# Housing and Homeless Incentive Program (HHIP) Proposed Program Design

A Public Entity

Inland Empire Health Plan

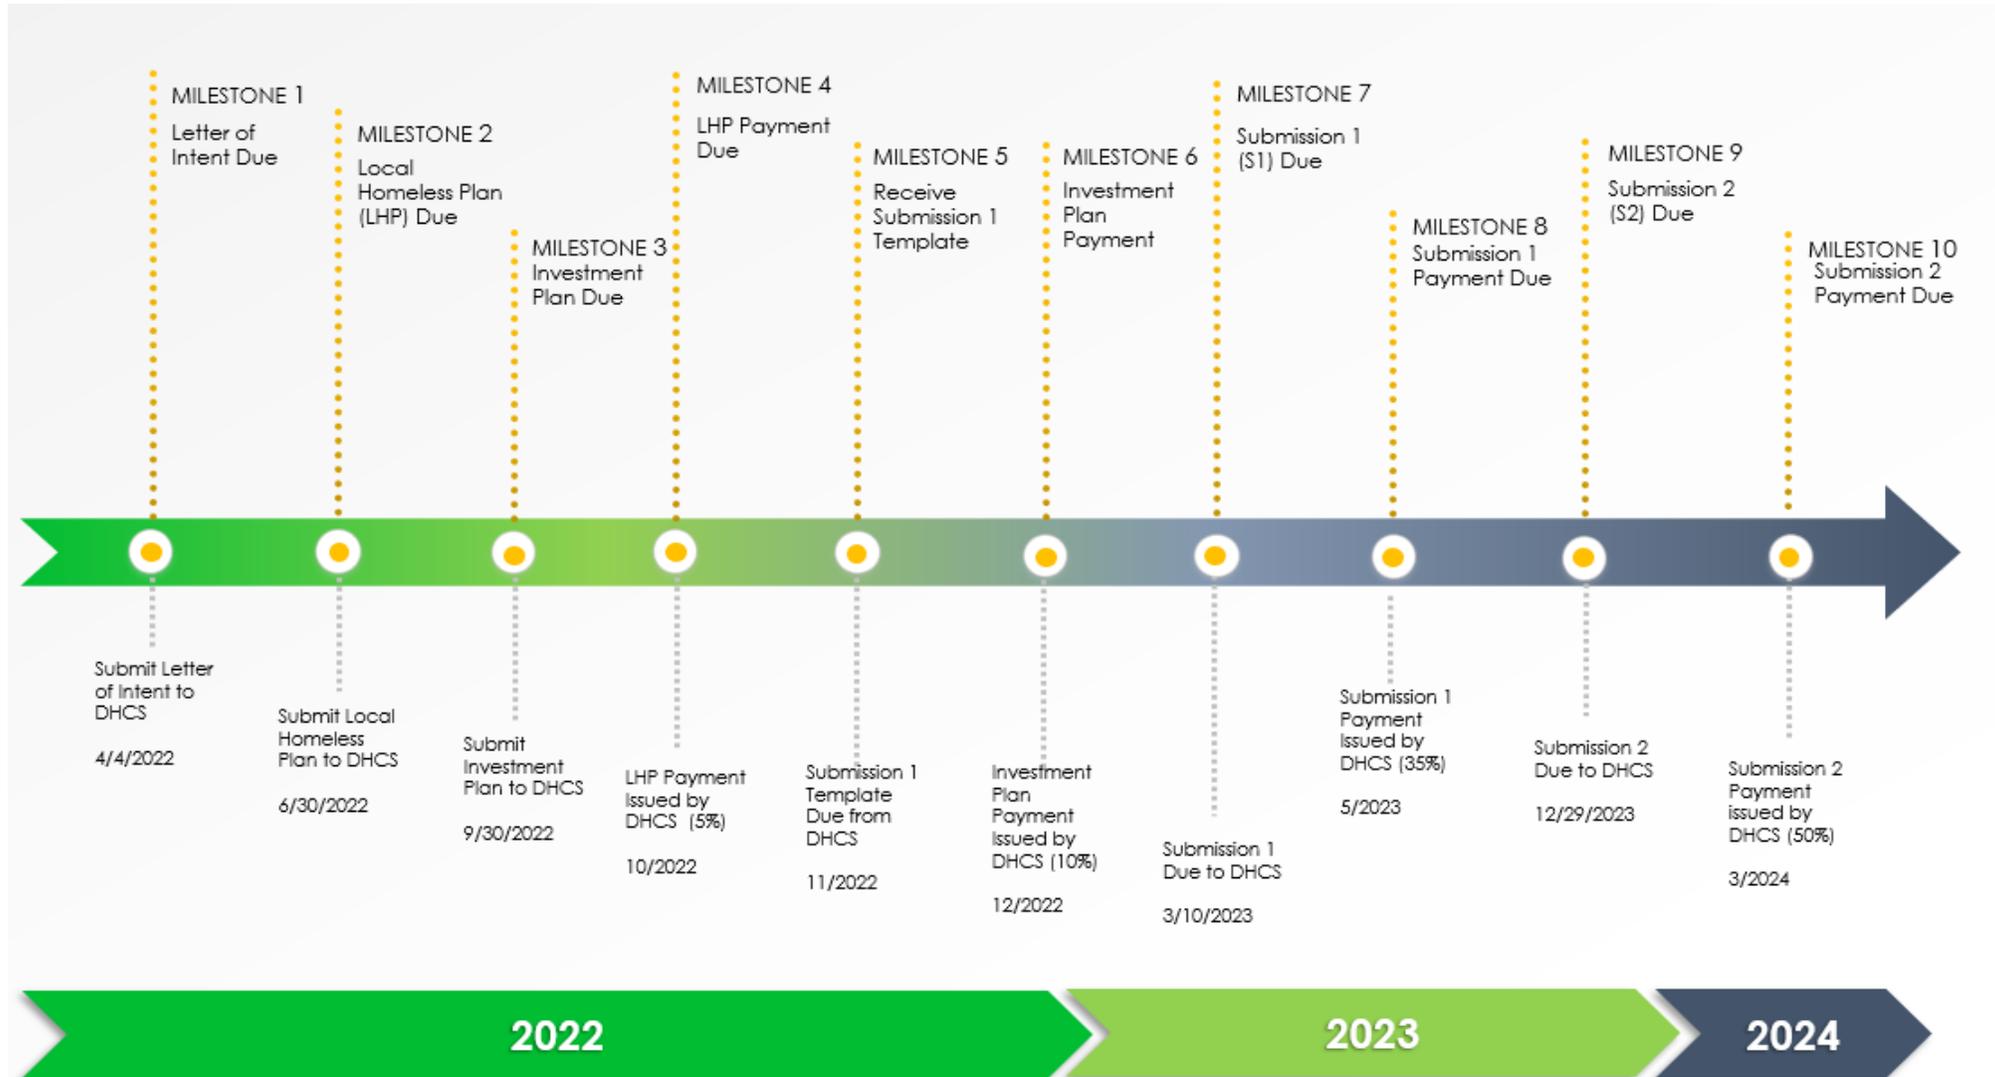

# HHIP Background and Overview

- HHIP is a voluntary incentive program that will allow Health Plans to earn incentive funds for making progress in addressing homelessness and housing insecurity and social determinants of health.
- Total Incentive Funds: \$1.288 billion one-time funds.
- Funding available through March 31, 2024.
- Funding can support and facilitate coordination between health plans and other entities.
- Funds will be awarded once metrics are met.
- Health Plans can flow incentive funding to partners who are leading efforts on the ground.

# HHIP Timeline

# Vision, Goals, & Strategic Approach

**VISION:** Improve health outcomes and access to whole person care services by addressing housing insecurity and instability as a social determinant of health for the Medi-Cal population

## Proposed Goals

1. Ensure Health Plans have the necessary capacity and partnerships to connect their Members to needed housing services.
2. Reduce and prevent homelessness.

# Proposed Strategic Approach

- **Develop** partnerships between health plans and social service agencies, counties, public health agencies, and public and community-based housing agencies to address homelessness
- **Provide** rapid rehousing for Medi-Cal families and youth, and interim housing for aging and disabled populations
  - *Note: IEHP is not permitted to directly pay for housing for individuals*
- **Expand** access to housing services and street medicine programs
- **Improve** access to coordinated housing, health and other social services
- **Reduce** avoidable use of costly health care services
- **Improve** whole person health for Medi-Cal enrollees, including behavioral health treatment and resources
- **Implement** solutions that manage information to better identify populations of focus and Member needs

# Local Homelessness Plan (LHP)

Health Plans will submit one Local homelessness Plan per county by June 30, 2022

## LHP Structure and Content

1. Landscape analysis of the health plan services area, including Member demographics, needs, and gaps.
2. Identification of funding availability
3. Health Plan strategies to address identified housing and service gaps
4. Measurement across three program priority areas:
  1. Partnerships and capacity to support referrals for services
  2. Infrastructure to coordinate and meet Member housing needs
  3. Delivery of services and Member engagement

# LHP Alignment with HHAP

The first three proposed sections of the LHP are in alignment with the County HHAP-3 Local Action Plan and application template to ensure alignment with the County.

Proposed LHP Structure and Content	County vs. Health Plan Submission
1. Landscape analysis of Health Plan Members in alignment with HHAP landscape analysis.	Unique Health Plan submission
2. Identification of funding availability, in alignment with HHAP assessment of funding availability.	One County Submission
3. Health Plan Strategies to address identified housing and service gaps in alignment with HHAP strategies to meet HHAP Outcome Goals	One County Submission detailing overall approach with specific strategies for each health plan

# HHIP Priority Areas

**1. Partnerships and Capacity for support referrals for services**

**2. Infrastructure to coordinate and meet Member housing needs**

**3. Delivery of services and Member engagement**

## **Measurement design guidance and assumptions:**

- Should be simple and provide health plans with a “checklist”
- Should be achievable within the short duration of the program
- Should incentivize partnerships for the health plans that will move people into housing and enable them to maintain stable housing
- Assume three health plan submissions

# Proposed Priority Area 1

## **Partnerships and capacity to support referrals for services**

- 1.1** Engagement with CoC, such as, but not limited to: Attending CoC meetings, Joining the CoC board, Joining a CoC subgroup or workgroup
- 1.2** Connection with the local homeless Coordinated Entry System
- 1.3** Description of Health Plan's proposed outreach and engagement efforts and approach to provide housing-related Community Supports services that health plan Members who are experiencing homelessness need and are not receiving
- 1.4** Partnerships with organizations that deliver housing services (i.e., interim housing, rental assistance, supportive housing, outreach, prevention/diversion) with whom the Health Plan has a data sharing agreement that allows for timely exchange of information and Member matching
- 1.5** Data sharing agreement with county Mental Health Plans and DMC-ODS (if applicable)
- 1.6** Partnerships and strategies the Health Plan will develop to address disparities and equity in service delivery, housing placements, and housing retention (aligns with HHAP Round 3)

# Proposed Priority Area 2

## Infrastructure to coordinate and meet member housing needs

**2.1** Connection with street medicine team providing healthcare for individuals who are homeless

**2.2** Health Plan connection with the local Homeless Management Information System (HMIS)

**2.3** Health Plan process for tracking and managing referrals for housing-related Community Supports, including:

1. Housing Transition Navigation
2. Housing Deposits
3. Housing Tenancy and Sustaining Services
4. Recuperative Care
5. Short-Term Post-Hospitalization Housing
6. Day Habilitation Programs

# Proposed Priority Area 3

## Delivery of services and member engagement

- 3.1 Members screened for homelessness/risk of homelessness
- 3.2 Members screened for homelessness/risk of homelessness transitioning from inpatient settings or have been to the emergency department for services two or more times in a 4-month period
- 3.3 Members efforts to participate in and collect the point in time (PIT) count of members determined as homeless/at risk of homelessness
- 3.4 Members receiving housing related Community Supports
- 3.5 Members who were successfully housed
- 3.6 Members who remained successfully housed

# Housing and Homeless Incentive Program (HHIP) Proposed Program Design

A Public Entity

Inland Empire Health Plan

**Interagency Council on Homelessness**  
Administrative Office  
215 North D Street, Suite 301, San Bernardino, CA 92415-0044  
Office: (909) 501-0610

**FROM:** Tom Hernandez, Office of Homeless Services

**SUBJECT:** Homeless Housing, Assistance and Prevention Round 4 Application and Data for Public Comment

**DATE:** November 16, 2022

**RECOMMENDATION**

Receive draft information and public comment on the Homeless Housing, Assistance and Prevention (HHAP) Round 4 application on behalf of the Continuum of Care (CoC).

**BACKGROUND INFORMATION**

On September 30, 2022, the State of California Interagency Council on Homelessness (Cal ICH) released a guidance document for the Local Homelessness Action Plan and Application Template. The template document was provided to support the development and submission of information required for approval by Cal ICH as required in AB 140 (Health & Safety Code § 50218.6, et seq.), collectively referred to as a Local Homelessness Action Plan.

The template is also intended to support the streamlined presentation of information required to be agendized at a local governing board meeting and available for public comment as stated in Health and Safety Code Section 50220.8(b)(4). Current statute does not require local governing boards to act on or formally adopt the agendized content, however the information provided is a requirement to be agendized at a regular meeting by the governing body for receipt of public comment.

Due to the quick turnaround time, in accordance with statute, the State did not issue a formalized notice of funding availability (NOFA) for guidance with this round of HHAP funding. In addition, recipients of funding will not know the allocation amounts for cities, counties and CoCs until the U.S. Department of Housing and Urban Development (HUD) releases the finalized 2022 Point-In-Time Count (PITC) numbers.

In a meeting with HUD held on November 3, 2022, HUD stated they anticipate releasing the finalized PITC numbers in mid to late December.

The application presented is in draft form and is still open for CoC input. The State is aware that applicants may need additional time for modification as the Governor will be hosting a meeting for applicants scheduled this week for further guidance and direction on goal/strategy setting.

# **LOCAL HOMELESSNESS ACTION PLAN AND APPLICATION TEMPLATE**

## **HOMELESS HOUSING, ASSISTANCE AND PREVENTION PROGRAM ROUND 4 (HHAP-4)**

September 30, 2022

## Purpose of this Template

The California Interagency Council on Homelessness (Cal ICH) is providing this Local Homelessness Action Plan and Application Template as optional for use by jurisdictions seeking the disbursement of remaining funding under Round 4 of the Homeless Housing, Assistance and Prevention Program (HHAP-4). This Template is intended to support the development and submission of information required for approval by Cal ICH as required in [AB 140 \(Health & Safety Code § 50218.6, et seq.\)](#), collectively referred to as a Local Homelessness Action Plan.

This Template is also intended to support the streamlined presentation of information required to be agendized at a local governing board meeting and available for public comment as stated in Health and Safety Code Section 50220.8(b)(4). Statute does not require local governing boards to take action on or formally adopt the agendized content, however, local governments may choose to do so. If the information in the section is a requirement to be agendized at a regular meeting by the governing body, including receiving public comment, that section is labeled "**AGENDIZE**".

### ▪ **PART I: LANDSCAPE ANALYSIS OF NEEDS, DEMOGRAPHICS, AND FUNDING**

This section provides a format for providing the following required information:

- (i) A **local landscape analysis** that assesses the current number of people experiencing homelessness and existing programs and funding which address homelessness.
- (ii) **Identification of the number of individuals and families served**, including demographic information and intervention types provided, and demographic subpopulations that are underserved relative to their proportion of individuals experiencing homelessness.
- (iii) **Identification of funds, currently being used, and budgeted to be used, to provide housing and homelessness-related services** to persons experiencing homelessness or at imminent risk of homelessness, how this funding serves subpopulations, and types of interventions funded.

### ▪ **PART II: OUTCOME GOALS AND STRATEGIES FOR ACHIEVING THOSE GOALS**

This section of the Template provides applicants with a format for providing Outcome Goals, and strategies for achieving those goals, across the following performance measures:

- Reducing the number of persons experiencing homelessness.
- Reducing the number of persons who become newly homeless each year.
- Increasing the number of people exiting homelessness into permanent housing.
- Reducing the length of time persons remain homeless.
- Reducing the number of persons who return to homelessness within two years after exiting homelessness to permanent housing.
- Increasing successful placements from street outreach.
- Trackable data goals related to the Outcome Goals as they apply to underserved populations and populations disproportionately impacted by homelessness.

### ▪ **PART III: APPLICATION NARRATIVE RESPONSES**

This section includes the required narrative responses for the HHAP-3 application. These narrative responses are to provide additional information on regional coordination, capacity building, and equity related efforts in alignment with local action plan goals and strategies.

### ▪ **PART IV: HHAP 4 FUNDING PLAN AND STRATEGIC INTENT NARRATIVE**

This section provides a format for describing the specific allowable activities to be supported with HHAP-4 funds and for describing the strategic intent for investing HHAP-4 resources into those activities and the alignment of those investments with other funding investments.

## APPLICANT INFORMATION

List the eligible applicant(s) submitting this application for HHAP-4 funding below and check the corresponding box to indicate whether the applicant(s) is/are applying individually or jointly.

### Eligible Applicant(s) and Individual or Joint Designation

This application represents  an **individual**  a **joint** application for HHAP-3 funding on behalf of the following eligible applicant jurisdiction(s):

Eligible Applicant Name
San Bernardino City & County CoC
Choose an item.

Funds awarded based on this application will be administered by the following **Administrative Entity**:

Administrative Entity Information	
<b>Administrative Entity:</b>	San Bernardino County Office of Homeless Services
<b>Contact Person:</b>	Nick Miller
<b>Title:</b>	Administrative Supervisor
<b>Contact Phone Number:</b>	(909) 501-0612
<b>Contact Email Address:</b>	Nicholas.Miller@hss.sbcounty.gov

### Agreement to Participate in HDIS and HMIS [50220.8(b)(3)(C)]

By submitting this application, we agree to participate in a statewide Homeless Data Integration System, and to enter individuals served by this funding into the local Homeless Management Information System, in accordance with local protocols.

## PART I: LANDSCAPE ANALYSIS OF NEEDS, DEMOGRAPHICS, AND FUNDING (AGENDIZE)

### A. Landscape Analysis of Needs and Demographics [50220.8(b)(1)(A)]

Please use **TABLE 1 in the HHAP-4 Data Tables Template** to provide key data regarding people experiencing homelessness in your jurisdiction. An example can be seen below.

The information provided in Table 1 should reflect the most current Point In Time Count data available or your most current and accurate way of estimating the number and demographics of people experiencing homelessness on the day that you are preparing the data, which could rely on utilizing: data from the Homeless Data Integration System (HDIS); point-in-time count (PIT) data; Continuum of Care Housing Inventory Count (HIC) data; longitudinal systems analysis (LSA); HUD's Stella tools; as well as any recently conducted local needs assessments, analyses, or other data sources.

**TABLE 1**

Table 1. Landscape Analysis of Needs and Demographics

## B. Landscape Analysis of People Being Served [50220.8(b)(1)(B)]

Please use **TABLE 2 in the HHAP-4 Data Tables Template** to report the number of individuals and families served. The data provided within Table 2 should represent **your most current and accurate way of estimating the annual number and demographics** of people participating within or being served by the different intervention types, including subpopulations that are underserved relative to their proportion of individuals experiencing homelessness in the jurisdiction. It is important to note that intervention types are not mutually exclusive, and individuals and households may be counted in multiple categories.

Grantees are encouraged to utilize existing documentation, including but not limited to: data from the Homeless Data Integration System (HDIS); point-in-time count (PIT) data; Continuum of Care Housing Inventory Count (HIC) data; longitudinal systems analysis (LSA); HUD's Stella tools; as well as data from the CoC's local HMIS and any recently conducted needs assessments, analyses, or other data sources. An example can be seen below.

### Table 2 uses the following abbreviations:

- PSH – Permanent Supportive Housing
- RRH – Rapid Rehousing
- TH – Transitional Housing
- IH / ES – Interim Housing or Emergency Shelter
- DIV – Diversion Services and Assistance
- HP – Homelessness Prevention Services and Assistance
- O/R – Outreach and Engagement Services

**TABLE 2**

**C. Landscape Analysis of State, Federal, and Local Funding [50220.8(b)(1)(C)]**

Please use **TABLE 3 in the HHAP-4 Data Tables Template** to identify and document all budgeted funds for homelessness-related services and housing opportunities. Please include state, federal and local funds for current and future fiscal years that are dedicated to homeless specific resources (e.g., CoC, ESG, HHAP). Also please include homelessness dedicated vouchers, including Housing Choice Vouchers (HCVs), Emergency Housing Vouchers (EHVs), Family Unification Program (FUP) or HUD-VA Supportive Housing (HUD-VASH) vouchers. For those fund sources supporting voucher-based programs, indicate your best estimate of the dollar value of those vouchers in your community rather than the number of vouchers. Please include resources related to affordable housing financing dedicated to homeless units, including Homekey, NPLH and any other homeless specific capital resources. Please exclude resources related to funds applied for but not awarded, and vouchers, capital awards, and any other resources not specifically dedicated to people experiencing homelessness in your community.

This information should not focus on funding only being expended directly alongside HHAP funding, but should document the full range of funding being used within your jurisdiction's efforts to prevent and end homelessness while identifying the housing and services programming that is supported with those funds.

The "Total Amount" should include the total funds invested into homelessness interventions from that source of funding in each of the designated fiscal year(s). For the current Fiscal Year only, please also select all intervention types that apply and provide a brief program description, indicating services provided and subpopulations served.

Applicants should add as many rows as necessary to identify and document the full range of funding being used within your jurisdiction's efforts to prevent and end homelessness. An example can be referenced below.

## PART II: OUTCOME GOALS AND STRATEGIES FOR ACHIEVING THOSE GOALS (AGENDIZE)

HHAP-4 applicant jurisdictions are required to establish Outcome Goals for the progress that they will make in preventing and reducing homelessness over the three-year period of July 1, 2022 through June 30, 2025, informed by the findings from the local landscape analysis information completed above and the jurisdiction's base system performance measures from the 2021 calendar year data in the Homeless Data Integration System.

Please note that these Outcomes Goals are not intended to be related to HHAP-4-funded activities alone, but rather are intended to represent jurisdictional or system-wide goals for making progress on preventing and ending homelessness through the implementation of the full range of federal, state, and local funding sources and through many other kinds of strategies and activities.

### HHAP-4 applicant jurisdictions must set goals for each of the following Outcome Goals:

- Reducing the number of persons experiencing homelessness.
- Reducing the number of persons who become newly homeless each year.
- Increasing the number of people exiting homelessness into permanent housing.
- Reducing the length of time persons remain homeless.
- Reducing the number of persons who return to homelessness within two years after exiting homelessness to permanent housing.
- Increasing successful placements from street outreach.

**Further, applicant jurisdictions are required to establish Homeless Management Information System trackable data goals related to each of the Outcome Goals as they apply to underserved populations and populations disproportionately impacted by homelessness.**

Cal ICH will provide applicant jurisdictions with baseline data on each of these measures. Grantees, in partnership with Cal ICH, will develop outcome goals established from the baseline data provided. Information on how these outcomes are being measured will be

provided with the baseline data. Cal ICH will also provide grantees with quarterly HDIS data in order to monitor progress on outcome goals.

## A. Outcome Goals [50220.8(b)(2)(A)]

Please use **TABLE 4 in the HHAP-4 Data Tables Template** to develop outcome goals. An example has been provided below.

**Note:** For the **Goal Statement** applicants should **only change the information in brackets, do not change any other wording in the goal statement except the information in brackets**. Please use the **Goal Narrative** section to explain key factors that helped determine the Outcome Goals being set, especially if the goals being set are not aligned with the directional intent of the Outcome Goals, e.g., if the goal is to reduce the rate of growth in the number of people who become homeless for the first time rather than the actual number of people who become homeless for the first time.

**Table 4: Outcome Goals**

Table 4. Outcome Goals			
<b>Outcome Goal #1a: Reducing the number of persons experiencing homelessness.</b>			
<b>Goal Statement:</b> By the end of the performance period, HDIS data for <b>San Bernardino County</b> and the <b>City and County of San Bernardino CoC</b> will show <b>675</b> total people accessing services who are experiencing homelessness annually, representing <b>2,025 more</b> people and a <b>25% increase</b> from the baseline.			
<b>Goal Narrative:</b> San Bernardino County and the CoC will increase outreach services and marketing of services to increase the number of individuals and families accessing services who are experiencing homelessness. This will include referrals and connections to mainstream services and an active campaign to make it easier to connect to housing related services and mainstream benefits.			
Baseline Data: Annual estimate of number of people accessing services who are experiencing homelessness	Outcome Goals July 1, 2022 - June 30, 2025		
	Change in # of People	Change as % of Baseline	Target Annual Estimate of # of people accessing services who are experiencing homelessness
<b>8,006</b>	2025	25%	675
<b>Underserved Populations and Populations Disproportionately Impacted by Homelessness</b>			
<b>Describe any underserved and/or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:</b>		<b>Describe the trackable data goal(s) related to this Outcome Goal:</b> <i>Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.</i>	
Seniors receiving services has increased year to year, both unheltered and sheltered compared to other populations. The number of unheltered adults over the age of 55 has increased by 135% since 2018. Since 2018, more than 1 out of 5 unheltered individuals has been identified with life threatening/chronic health conditions. Nearly half (43.5%) of the unheltered adults identified in the 2022 PITC have experienced homelessness for more than 12 months in the last 3 years and have disabling health conditions. African Americans are four times more likely to experience homelessness compared to individuals who identify as White.		The CoC will accomplish the following towards this goal: <ul style="list-style-type: none"> <li>•The number of adults over the age of 55 accessing services leading to permanent housing stability will increase by 20%.</li> <li>•The number of adults with chronic health, physical disabilities and other disabling conditions accessing services leading to permanent housing stability will increase by 20%.</li> </ul> The County will complement the CoC through the following: <ul style="list-style-type: none"> <li>•Senior referrals to permanent housing options through the CES will increase by 15%.</li> <li>•Work with cities and other partners to increase the supply of year-round permanent shelter by 200 beds throughout the county to accommodate diverse populations.</li> <li>•Reduce the housing placement time for African Americans by 50%.</li> </ul>	

**Outcome Goal #1b. Reducing the number of persons experiencing homelessness on a daily basis.**

**Goal Statement:**

By the end of the performance period, data for **San Bernardino County** and the **City and County of San Bernardino CoC** will show **-158** total people experiencing unsheltered homelessness daily, representing **475 fewer** people and a **20% reduction** from the baseline.

**Goal Narrative:**

Within the 3 year outcome goal timeline presented the County and the CoC anticipate an annual reduction of 158 individuals captured through the annual point-in-time count. This will result in a decline of 475 individuals counted over a 3 year time period.

Baseline Data: Daily Estimate of # of people experiencing unsheltered homelessness	Outcome Goals July 1, 2022 - June 30, 2025		
	Change in # of People	Change as % of Baseline	Target Daily Estimate of # of people experiencing unsheltered homelessness
<b>2,389</b>	475	-20%	-158

**Underserved Populations and Populations Disproportionately Impacted by Homelessness**

**Describe any underserved and/or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:**

The number of people experiencing unsheltered homelessness on a daily basis has increased by 66% since 2018. According to the Point-In-Time Count (PITC), 1,027 individuals identified as chronically homeless on the day of the 2022 PITC. This would be 3 chronically homeless individuals identified per week, who identify as the following: Seniors, chronic health conditions, physical disabilities, severely mentally ill re-entry pop. African Americans represent 8% of the population in San Bernardino County but represented 21% of the people experiencing unsheltered homelessness in 2020 and 18% in 2022. According to the Point-In-Time Count (PITC), there was an increase of 28% of shelter beds usage. Most of the increase usage was seen in families and seniors who identify as African American. One third of all individuals and families in shelter identify as Black/African American. The number of unsheltered adults over the age of 55 has increased by 135% since 2018. Since 2018, more than 1 out of 5 unsheltered individuals has been identified with life threatening/chronic health conditions. Based on the 2022 PITC, more than 1 out of 3 (37%) adults counted as unsheltered in 2022 identified having substance abuse issues and nearly 1 out of 3 (29%) identified having mental health issues. An additional focus needs to be on young adult and youth-centered shelter services. One third of all residents in shelter are under the age of 25 years.

**Describe the trackable data goal(s) related to this Outcome Goal:**  
*Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.*

The CoC will accomplish the following towards this goal:

- The number of African Americans experiencing unsheltered homelessness will decrease by 20%.
- The number of unsheltered adults over age 55 and persons with chronic health and/or other disabling conditions experiencing homelessness on a daily basis will decrease by 20%.

The County will complement the CoC through the following:

- Homelessness will decrease by 10% among persons who identify as Black/African American.
- Increase shelter utilization rate from 87% to 95%.
- 100% of shelters will be trained in trauma-informed approaches.
- Increase beds occupied by 200.

**Outcome Goal #2. Reducing the number of persons who become newly homeless.**

**Goal Statement:**

By the end of the performance period, HDIS data for **San Bernardino County** and the **City and County of San Bernardino CoC** will show **-208** total people become newly homeless each year, representing **625 fewer** people and a **15% reduction** from the baseline.

**Goal Narrative:**

This goal will focus primarily on prevention. This will require a specific focus of federal and state resources dedicated to preventative activities to reduce the number of individuals and families who enter into homelessness for the first time. Actions will be coupled with municipalities efforts and school district efforts to reduce homelessness primarily through actions to assist special target groups as noted in the trackable goals as well as keeping individuals and families housed through rental assistance, utility payments, or rental arrears.

Baseline Data: Annual Estimate of # of people who become newly homeless each year	Outcome Goals July 1, 2022 - June 30, 2025		
	Change in # of People	Change as % of Baseline	Target Annual Estimate of # of people who become newly homeless each year
<b>4,176</b>	625	-15%	-208

**Underserved Populations and Populations Disproportionately Impacted by Homelessness**

**Describe any underserved and/or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:**

More than half of the people assisted through the homelessness service system in 2020 (53%) became homeless for the first time. 75% of the persons who became homeless for the first time in 2020 were Hispanic/Latino or African American. 54% of the people who became homeless for the first time in 2020 were in households with at least 1 adult and 1 child. African American households in general, African American single moms w-children. African American households make up 9% of the population of San Bernardino County however, 40% of the individuals and persons in families within the Homeless Management Information System identify as Black/African American, 49% of whom became homeless for the first time. They are more than 4 times disproportionately affected by homelessness than other populations in the County. This is even more reflective in the African American single moms w-children target population. At least 500 people experiencing significant mental illness became homeless for the first time in 2020. Over 400 unaccompanied youth 24 years of age and under became homeless for the first time in 2020. This age group are at higher risk of remaining homeless if intervention is not provided during this crucial time period, with many not having substantial social capital.

**Describe the trackable data goal(s) related to this Outcome Goal:**  
*Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.*

The CoC will accomplish the following towards this goal:

- Number of families w-children who become homeless for the first time will decrease by 15%
- Number of Hispanic/Latino and African American households who become homeless for the first time will decrease by 15%
- The number of transitional housing units available for transitional aged youth before they become homeless will increase by 15%.

The County will complement the CoC through the following:

- Increase housing placement for youth 24 years of age and under by an additional 25 placements per year.
- Increase transitional housing for youth by 20 units per year.
- Reduce the number of African American households who become homeless for the first time by a minimum of 25%.

**Outcome Goal #3. Increasing the number of people exiting homelessness into permanent housing.**

**Goal Statement:**

By the end of the performance period, HDIS data for **San Bernardino County** and the **City and County of San Bernardino CoC** will show **203** total people exiting homelessness into permanent housing annually, representing **609 more** people and a **25% increase** from the baseline.

**Goal Narrative:**

As a result of the increased investments by the State and Federal governments in housing development, motel/hotel conversions, and ongoing voucher assistance the County and CoC estimate the creation of a potential hundreds of housing units to be made available in the subsequent years. San Bernardino County and cities within the region have already received substantial Homekey projects and will continue applying for funding and making additional program investments in PSH and RRH through funding received.

Baseline Data: Annual Estimate of # of people exiting homelessness into permanent housing	Outcome Goals July 1, 2022 - June 30, 2025		
	Change in # of People	Change as % of Baseline	Target Annual Estimate of # of people exiting homelessness into permanent housing
<b>2,407</b>	609	25%	203

**Underserved Populations and Populations Disproportionately Impacted by Homelessness**

**Describe any underserved and/or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:**

Only one-third (34%) of all persons assessed through the homelessness service system in 2020 exited homelessness into permanent housing. Only 1 out of 5 (21%) unaccompanied youth (18-24) served through the homelessness service system in 2020 exited homelessness into permanent housing. Only 26% of persons experiencing significant mental illness and only 17% of persons experiencing substance abuse disorders served through the homelessness service system exited homelessness into permanent housing. Less than one-third (31%) of all persons served in emergency shelter or transitional housing in 2020 exited homelessness into permanent housing.

Veterans; Families; African American households; Veterans make up a little over 10% of the homelessness population, but the majority receiving services are diagnosed with chronic health conditions, including mental illnesses.

Families receiving emergency housing services who are new to homelessness have a lower exit to permanent housing rate than those referred to permanent housing options.

African American households are over-represented in all areas of housing assistance, and as such prioritizations should be provided to improve position outcomes in regards to housing placement.

**Describe the trackable data goal(s) related to this Outcome Goal:**

*Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.*

The CoC will accomplish the following towards this goal:

- The number of people exiting homelessness into permanent housing will increase by 16%.
- The number of people exiting shelter/interim housing into permanent housing will increase by 25%.
- The number of unaccompanied youth and parenting youth (under 25) exiting homelessness into permanent housing will increase by 20%.
- The number of people experiencing behavioral health issues exiting homelessness into permanent housing will increase by 10%.

The County will complement the CoC through the following:

- Percentage of African American households exiting homelessness to permanent housing will increase by 15%.
- Reduce the length of time in shelter/interim housing and connections to permanent housing options by half.
- Double current housing search services and activities.

**Outcome Goal #4. Reducing the length of time persons remain homeless.**

**Goal Statement:**

By the end of the performance period, HDIS data for **San Bernardino County** and the **City and County of San Bernardino CoC** will show **106** days as the average length of time that persons are enrolled in street outreach, emergency shelter, transitional housing, safehaven projects and time prior to move-in for persons enrolled in rapid rehousing and permanent housing programs annually, representing **35 fewer** days and a **25% reduction** from the baseline.

**Goal Narrative:**

Currently, individuals and families on average wait nearly 5 months to be connected to a permanent housing program. Improving CES and available housing options through better data management and faster enrollment services, the County and CoC will reduce the wait time for housing placement by over a month. This will result in families moving into permanent housing at a faster rate, helping to reduce the numbers of individuals and families seeking housing. Housing navigation and placement services will be connected through CES to accomplish this goal.

Baseline Data: Average length of time (in # of days) persons enrolled in street outreach, emergency shelter, transitional housing, safehaven projects and time prior to move-in for persons enrolled in rapid rehousing and permanent housing programs	Outcome Goals July 1, 2022 - June 30, 2025		
	Change in # of Days	Change as % of Baseline	Target Average length of time (in # of days) persons enrolled in street outreach, emergency shelter, transitional housing, safehaven projects and time prior to move-in for persons enrolled in rapid rehousing and permanent housing programs
<b>141</b>	35	-25%	106

**Underserved Populations and Populations Disproportionately Impacted by Homelessness**

**Describe any underserved and/or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:**

Households with at least 1 adult and 1 child assisted through the homeless service system in 2020 remained homeless for an average of 151 days. African American households assisted through the homeless service system in 2020 remained homeless for an average of 143 days. Latino households, although their average wait time is less at 116 days, collectively are composed of a large number of impacted individuals. People/households of multiple races assisted through the homeless service system in 2020 remained homeless for an average of 174 days. Over 75% of individuals who remain homeless the longest are considered BIPOC (Black, Indigenous, People of Color).

**Describe the trackable data goal(s) related to this Outcome Goal:**

*Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.*

The CoC will accomplish the following towards this goal:

- The average length of time persons in households with children remain homeless will be reduced by 51 days.
- The average length of time African American households remain homeless will be reduced by 43 days.

The County will complement the CoC through the following:

- Decrease the length of time from entry into by-name list to CES by 25%.

The CoC and County collectively will accomplish the following goal:

- The average length of time that all BIPOC households remain homeless will be reduced by 25% from entry into CES to appropriate service connections.

**Outcome Goal #5. Reducing the number of persons who return to homelessness within two years after exiting homelessness to permanent housing.**

**Goal Statement:**  
 By the end of the performance period, HDIS data for **San Bernardino County** and the **City and County of San Bernardino CoC** will show **2%** of people return to homelessness within 2 years after having exited homelessness to permanent housing, representing **48 fewer** people and a **3% reduction or increase** from the baseline.

**Goal Narrative:**  
 Baseline data shows 2,407 individuals entering into permanent housing each year. San Bernardino County/CoC recidivism rates show about 8% of successful housing exits return to homelessness within 2 years. The goal of the region is to reduce the 3 year recidivism rate by 3%. This will account for a 2% decrease within 2 years reflecting 48 fewer people exiting back into the streets and maintaining their housing.

Baseline Data: % of people who return to homelessness within 2 years after having exited homelessness to permanent housing	Outcome Goals July 1, 2022 - June 30, 2025		
	Change in % of People	Change as % of Baseline	Target % of people who return to homelessness within 2 years after having exited homelessness to permanent housing
<b>8%</b>	3%	-33%	2%

**Underserved Populations and Populations Disproportionately Impacted by Homelessness**

Describe any underserved and/or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:	Describe the trackable data goal(s) related to this Outcome Goal: <i>Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.</i>
<p>According to the landscape analysis provided, unaccompanied youth and parenting youth have a higher percentage of returns to homelessness within 6 months (14% and 10% respectively) compared to all other groups in 2020. Also, the landscape analysis identified many BIPOC households with double digit percentage returns to homelessness within 6 months. In addition, 11% of persons experiencing severe mental illness and persons experiencing substance abuse disorders returned to homelessness within 6 months. And, 10% of Veterans and persons fleeing domestic violence returned to homelessness within 6 months.</p>	<p>The CoC and County collectively will accomplish the following goal:</p> <ul style="list-style-type: none"> <li>•The percentage of transitional aged youth (18-25) who return to homelessness after exiting to permanent housing will be reduced by 25%.</li> <li>•The percentage of BIPOC households who return to homelessness after exiting to permanent housing will be reduced by 25%.</li> <li>•The percentage of persons experiencing severe mental illness and persons experiencing substance abuse disorders who return to homelessness after exiting to permanent housing will be reduced by 25%.</li> <li>•The percentage of Veterans and persons fleeing domestic violence who return to homelessness after exiting to permanent housing will be reduced by 25%.</li> </ul>

**Outcome Goal #6. Increasing successful placements from street outreach.**

**Goal Statement:**

By the end of the performance period, HDIS data for **San Bernardino County** and the **City and County of San Bernardino CoC** will show **69** total people served in street outreach projects exit to emergency shelter, safe haven, transitional housing, or permanent housing destinations annually, representing **207 more** people and a **100% increase** from the baseline.

**Goal Narrative:**

San Bernardino County and the CoC are investing millions in state and federal funding to address street homelessness. The region currently has multiple teams funded to provide street outreach and engagement to reduce the numbers of unheltered homeless.

Baseline Data: Annual # of people served in street outreach projects who exit to emergency shelter, safe haven, transitional housing, or permanent housing destinations.	Outcome Goals July 1, 2022 - June 30, 2025		
	Change in # of People	Change as % of Baseline	Target Annual Estimate of # of people served in street outreach projects who exit to emergency shelter, safe haven, transitional housing, or permanent housing destinations.
<b>207</b>	207	100%	69

**Underserved Populations and Populations Disproportionately Impacted by Homelessness**

Describe any underserved and/or disproportionately impacted population(s) that your community will especially focus on related to this Outcome Goal and how this focus has been informed by data in your landscape assessment:	Describe the trackable data goal(s) related to this Outcome Goal: <i>Note: Meeting the trackable data goals for the underserved populations is not required for eligibility for Bonus Funds.</i>
<p>In 2020, only 25% of people enrolled in street outreach projects were successfully exited to a sheltered or permanent housing destination.</p> <p>In 2021, almost 3000 women and girls, over 1800 Hispanic/Latinos and over 1500 African Americans were enrolled in a street outreach project.</p> <p>In addition, almost 500 people identified as Chronically Homeless and over 750 people experiencing substance abuse disorder were enrolled in a street outreach project.</p> <p>High utilizers of services are individuals who utilize multiple public safety and safety net services such as healthcare (including inpatient and outpatient emergency care), criminal justice (including law enforcement, courts, and corrections), emergency response, and homeless services. High utilizers of services tend to be BIPOC, have chronic &amp; physical health conditions, and are older.</p> <p>Transitional aged youth, although a smaller number countywide, have fewer positive outcomes compared to other groups and are more likely to return to the streets within 6 months of housing related services.</p>	<p>The CoC will accomplish the following towards this goal:</p> <ul style="list-style-type: none"> <li>• 100 high utilizers of services will be successfully placed from street outreach to a permanent housing destination.</li> <li>• The number of people successfully placed from street outreach to a sheltered or permanent housing destination will increase by 25%.</li> <li>• The number of chronically homeless people successfully placed from street outreach to a sheltered and/or permanent housing location will increase by 25%.</li> </ul> <p>The County will complement the CoC through the following:</p> <ul style="list-style-type: none"> <li>• In one year, 100 unheltered high utilizers of services will exit homelessness, with 65% entering into stable housing and 35% connected to services to support housing and safety.</li> </ul> <p>The CoC and County collectively will accomplish the following goal:</p> <ul style="list-style-type: none"> <li>• The number of women and girls successfully placed from street outreach to a sheltered or permanent housing location will increase by 25%.</li> <li>• The number of BIPOC households successfully placed from street outreach to a sheltered or permanent housing location will increase by 25%.</li> </ul>

**B. Strategies for Achieving Outcome Goals**

In this section, applicants must describe actionable strategies they will implement to meet the Outcome Goals identified above. Because individual strategies to address homelessness usually contribute to meeting more than one desired outcome, applicants are asked to identify the strategy and then to indicate all the outcome goals for which the strategy will help drive progress and to indicate if it will help drive progress on goals for underserved populations and populations disproportionately impacted by homelessness.

**Please use TABLE 5 in the HHAP-3 Data Tables Template** to document the strategies that will be implemented. An example has been provided below.

**Applicants are expected to identify and describe local strategies that include but extend beyond the current and planned use of HHAP funding to be inclusive of, but not limited to, strategies for:**

- Strategic uses of other sources of funding;
- Increasing investments into, or otherwise scaling up, specific interventions or program types;
- Strengthening the quality or performance of housing and/or services programs;
- Improving access to supportive services and/or physical health and behavioral health services;
- Expanding and strengthening cross-system partnerships and/or collaborative planning;
- Improving data quality, data systems, and/or data analyses to better inform decision-making;
- Building the capacity of homelessness response system to utilize resources, implement best practices, and/or achieve outcomes;
- Strengthening systemic efforts and processes, such as coordinated entry and assessment processes, landlord engagement efforts, housing navigation strategies, and other systemic improvements;
- Expanding and strengthening partnerships with people with lived expertise;
- Reaching underserved and historically marginalized communities and populations; and
- Other equity-focused strategies.

In describing these strategies, **applicants are strongly encouraged to use and/or adapt content from:**

- Current local strategic plans or actions plans for preventing and ending homelessness;
- Prior HHAP applications and reporting;
- Recent applications under HUD's Continuum of Care program; and/or
- Other relevant local policy documents or plans.

**a. Please describe your most notable coordination and collaborative processes with these entities:**

The Office of Homeless Services (OHS) is an office under the County's Community Revitalization section, which is the lead agency identified by the County to administer both the County's portion of HHAP funding and the Continuum of Care's (CoC). As such, it is the responsibility of the OHS to actively coordinate and establish collaborative efforts with all agencies providing homeless-related services throughout the region. The current CoC governing board is made up of representatives from the County, local cities, nonprofits, a person with lived experience, the county's local education agency, and the main region's housing authority, to coordinate and share resources with the CoC. Annually, the OHS engages all members of the CoC and other county agencies in a series of multi-jurisdictional online workshops and/or committees designed to address the specific needs of the various regions throughout the county and to receive their input in the planning/development process. Members of the CoC, which include homeless service providers, nonprofit organizations, faith-based organizations, homeless advocates, current and formerly homeless, city, county, state and federal agencies meet regularly with other providers in their regions to review all data available to make data informed decisions for funding prioritization based on regional needs. In the past, the CoC and the County have received almost similar amounts respectfully. The CoC has allocated almost all the funding to support regional efforts primarily focused on supportive services, temporary shelter, bridge housing and rental assistance. The County complemented those actions by focusing on

longer-term solutions as noted within the County recently adopted Homeless Strategic Action Plan (HSAP). The HSAP was developed with input from over 500 key stakeholders including nonprofits, faith-based organizations, developers, healthcare providers, people with lived experience, Veterans, seniors, youth, municipalities, the 5 service planning areas of the CoC, County departments, Caltrans, homeless advocates, and members of the various communities throughout the county. The allocation of these funds in this manner will allow for the HHAP resources to be invested in the full spectrum of addressing homelessness.

--	---	---	--	--

**a. Please describe your most notable partnerships with these groups (e.g. MOUs, shared funding, data sharing agreements, service coordination, etc.)**

The Office of Homeless Services (OHS) has been partnering with the Homeless Veterans Community Planning Group (HVCPG) since 2015. On July 21, 2015, the San Bernardino County Board of Supervisors convened a Special Study Session on homelessness during which they voted unanimously (4-0) to implement a new strategy to end veterans' homelessness in the county. This commitment included a comprehensive and coordinated approach to place the county's 401 identified homeless veterans into permanent housing by the end of 2015.

The commitment involved the Homeless Veterans Community Planning Group (HVCPG), which formed in November 2014, at the VA Medical Center in Loma Linda to address the task of ending veteran's homelessness in San Bernardino County. In conjunction with the planning group, the OHS would assist to maintain a Master List to keep track of the scope of the homeless veteran problem in the county; the HVCPD would establish benchmarks to accomplish its mission; and identify the resources needed to accomplish the mission of ending veterans homeless in San Bernardino County.

In order to address the Initiative, a comprehensive strategy and partnership between multiple agencies was formed. This Partnership included a variety of members from the Homeless Provider Network, which represents the membership of the Continuum of Care (CoC), local government agencies (i.e., county and city governments), Veteran service provider agencies, the Veterans Affairs (VA) Loma Linda Healthcare System, the San Bernardino County VA Office and benefit assistance, the Housing Authority of the County of San Bernardino (HACSB), the local coordinated entry system (CES), members of the private sector and faith-based communities, the Sheriff's Homeless Outreach and Proactive Enforcement (HOPE) Team, and Veteran housing advocates. These members established a sharing protocol, which included a release of information protocol to share data regarding homeless Veterans who were being assisted by the various agencies to connect them with appropriate housing.

Since the beginning of the Initiative, the HVCPG, OHS, VA Loma Linda, County VA, the HACSB, CES, and the CoC, have been meeting weekly to review the status of the active Veterans receiving case management support and housing support services. To date this partnership has housed nearly 2,000 Veterans' households. The HACSB has secured 629 Veterans Affairs Supportive Housing (VASH) vouchers for the region, and our Supportive Services for Veterans and Families (SSVF) have secured millions in funding for our joint endeavor.

Another partnership between OHS that has added to the robust nature of services throughout the county is through its partnership with the Sheriff's HOPE Team. The HOPE Team serves as a crucial component of the CES and is the primary street outreach team the local CoC and County relies on. The HOPE Team has established a geographic information system (GIS) using ESRI global mapping technology. This system is overlaid with data the OHS uses to capture point-in-time county (PITC) homeless survey data. OHS has entered into a memorandum of understanding with the Sheriff to capture this data and allow access to the HOPE Team of the Homeless Management Information System (HMIS) data and ultimately CES information.

The HOPE Team and through its Sheriff partners, assesses unsheltered individuals encountered in the streets to connect them with essential resources using CES and HMIS. This has resulted in a robust accounting of homeless individuals through a near weekly census. Data is capture and shared and the HOPE Team and OHS can see trends in homelessness and movement throughout the county utilizing this system. As a result of the success using ESRI, the CoC has opted to switch its HMIS software provider to BitFocus/Clarity which is based on an ESRI platform.

**4. [50220.8(b)(3)(B) and 50220.8(b)(3)(E)] My jurisdiction (e.g., City, County, CoC) is strengthening its partnership, strategies, and resources across:**

Managed care plans and resources (such as the Housing and Homelessness Incentive Program [HHIP])	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Data Sharing Agreement Established	<input checked="" type="checkbox"/> Other (please explain) HMIS agreement and Community Supports
--	---	-----------------------------	---	--

Physical and behavioral health care systems and resources	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	<input checked="" type="checkbox"/> Data Sharing Agreement Established	<input type="checkbox"/> Other (please explain) Click or tap here to enter text.
Public health system and resources	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> Data Sharing Agreement Established	<input checked="" type="checkbox"/> Other (please explain) Roomkey agreements in place

**a. Please describe your most notable coordination, planning, and/or sharing of data/information that is occurring within these partnerships.**

Beginning in 2018, the OHS had initiated collaboration with the CoC Standing Health Committee to see how it could connect resources to the various local healthcare providers and managed care plans. This resulted in allowing health agencies to have read-only access to the HMIS, so health employed social workers and case managers would be able to see if homeless patients had or are currently receiving supportive services through agencies participating as part of the HMIS. In order to access the data, each agency seeking access entered into a memorandum of understanding with the OHS.

This also allowed greater expansion to the original whole person care stratagem to overlay health and homeless resources. OHS later participated with the local managed care organizations to implement California Advancing and Innovating Medi-Cal (Cal AIM) efforts through enhance case management community supports in partnership with the local Department of Behavioral Health.

More recently, the OHS through its Community Revitalization group has engaged in discussion with the two local Medi-Cal managed care plans, Inland Empire Health Plan (IEHP) and Molina Healthcare, have been coordinating how the Homeless Housing, Incentive Program (HHIP) and the Homeless Housing, Assistance and Prevention (HHAP) program can complement each other to enhance and combine health and homeless care resources.

IEHP and Molina Healthcare participated in a collaborative effort to reduce and prevent homelessness in San Bernardino County while also ensuring Medi-Cal members have access to housing services. Both agencies engaged representatives of the County and CoC for development and input for their Housing and Homelessness Incentive Program (HHIP) County Local Homelessness Plans which were derived to align efforts with the local CoC and County in their joint homeless action planning efforts. Both health plans are resolved to address identified housing and service gaps in alignment with San Bernardino County's Homelessness

Action Plan and the Homeless Housing, Assistance and Prevention (HHAP) Grant Program by ensuring that health plans have the necessary capacity and partnerships to connect Members to needed housing services. IEHP, Molina, the CoC and County will work together on an approach that focuses on the following:

- Develop partnerships between MCPs and social service agencies, counties, public health agencies, and public and community-based housing agencies to address homelessness
- Provide rapid rehousing for Medi-Cal families and youth, and interim housing for aging and disabled populations
- Expand access to housing services and street medicine programs
- Improve access to coordinated housing, health, and other social services
- Reduce avoidable use of costly health care services
- Improve whole person health for Medi-Cal enrollees, including behavioral health treatment and resources
- Implement solutions that manage information to better identify populations of focus and Member needs

Discussions have already begun in terms of investing HHIP resources to improve the overall homeless services system within the region to enhance positive health and homeless joint outcomes.

5. **[50220.8(b)(3)(F)] Please select what actions your jurisdiction will take to ensure racial/ethnic/gender groups that are overrepresented among residents experiencing homelessness have equitable access to housing and services.** *Note: These actions should be aligned with the equity-focused Outcome Goals and related strategies described in previous Parts, but should not need to be limited to those strategies.*

- Disaggregating administrative data for use in decision making processes
- Modifying procurement processes
- Ensuring those with lived experience have a role in program design, strategy development, and oversight
- Developing workgroups and hosting training related to advancing equity

Other, please describe:

**a. Please describe the most notable specific actions the jurisdiction will take regarding equity for racial/ethnic/gender groups.**

The CoC actively recruits persons with lived experience, specifically communities of color and LGBTQ+ to participate in policy, program, and funding decisions at the annual Homeless Summit, Project Connect Outreach events, and during the PITC volunteer recruitment. As a result of the active recruitment there are 10 persons with lived experience that provide input into the local planning process and recommend revisions to local policies addressing homelessness related to coordinated entry, services, and housing.

The CoC recently created an ad hoc committee to review historical data to analyze and create strategies to address racial disparities within the region based on aggregate data from the Racial Equity Analysis Tool (REAT) and California's Homeless Data Integration Systems (HDIS), The U.S. Census Bureau American Community Survey (ACS); Point-in-Time Homeless Unsheltered and Sheltered Count (PIT Count); Coordinated Entry System (CES); and Homeless Management Information System (HMIS). The San Bernardino County CoC analyzed the information looking for racial disparities which revealed two significant racial/ethnicity disparities when the data sources are used to determine "overrepresentation: by comparing the data sources for race and ethnic groups. The data revealed the following:

1. Black/African Americans are disproportionately represented in the homeless population compared to their representation in the general population. Black/African Americans made up 8% of the general population and 12% of persons living in poverty in San Bernardino in 2019. Blacks/African Americans, however, made up 24% of the total number of persons counted during the 2020 homeless count and 21% of the total number of persons counted as unsheltered (living on the streets, in makeshift shelters (i.e., tents, tarps, and/or boxes) and 32% of the total number of persons counted as sheltered, which includes staying in an emergency shelter, transitional housing and non-congregate shelter such as a hotel/motel room paid by a charitable entity.

2. More than 52% of the general population of Hispanics or Latinos was living in poverty, whereas nearly 31% of homeless persons entered in to CES were Hispanics or Latinos and approximately 35% of homeless persons entered into HMIS were Hispanics or Latinos and approximately 36% of homeless persons who exited to permanent housing after being entered into HMIS were Hispanics.

The County and the CoC will seek to recommend and implement the following actions in regards to racial equity: 1) enhance service delivery, specific to communities impacted by gender, with program services designs created to include gender-specific delivery of services, 2) housing placement activities which will focus on single parent, elderly, LGBTQ+ people, particularly those at the very lowest income limits with these often disenfranchised groups being prioritized for future housing investments made by the state and federal governments, and 3) support housing retention rates by ensuring housing policies are created utilizing a gender lens and design housing with gender-related development in mind and incorporating a gender-responsible inclusiveness for County and CoC planning purposes, identifying the unique challenges faced by women and LGBTQ+ people of lived experience, especially among the BIPOC community.

In addition, the County OHS works with the CoC to include formerly homeless individuals in discussion and policy-making activities. In 2022, the CoC created the Homeless Strategic Action Plan to focus on strategic and continuous improvement to prevent and reduce homelessness and included input about policies and best practices from formerly homeless persons. This included input from a person with former lived experience, a former homeless youth with lived experience, and a former homeless Veteran with lived experience.

The CoC Board and OHS staff regularly coordinates advisory committees and invite homeless and formerly homeless to participate in homeless planning meetings to determine, funding criteria, funding scoring criteria, policy updates and policy making. Persons with lived experience sit on almost every CoC-related homeless committee, including those that make decisions about program implementation and system-wide policies. Persons with lived experience have worked with the County and the CoC to adopt policies and operations, promote affordable housing solutions, and recommend best practices on engaging people with lived experience. CoC efforts to engage persons with lived experience of homelessness

include announcements during the CoC Board and committee meetings.

**6. [50220.8(b)(3)(G)] My jurisdiction (e.g., City, County, CoC) has specific strategies to prevent exits to homelessness from institutional settings in partnership with the following mainstream systems:**

Physical and behavioral health care systems and managed care plan organizations	<input type="checkbox"/> Yes, formal partnering	<input checked="" type="checkbox"/> Yes, informal partnering	<input type="checkbox"/> Yes, leveraging funding	<input type="checkbox"/> No	<input type="checkbox"/> Other (please explain) Click or tap here to enter text.

**a) Please describe the most notable specific actions the jurisdiction will take to prevent exits to homelessness from institutional settings.**

Both the County and the CoC have recommended discharge policies for institutions that are at higher risk of discharging individuals into homelessness upon release from the facility. Traditionally, these discharge policies are associated with foster care services, correctional facilities or through juvenile probation clients, mental health institutions, hospitals and healthcare providers, treatment centers, and potential military organizations.

All of these agencies are required to take specific steps to connect discharged clients with resources that will support the long-term care to help these individuals into housing, housing maintenance, and prevent homeless recidivism. The County and CoC will explore strengthening current policies to help prevent returns into homelessness. Some of the recommendations will include:

- High-level wrap around support, access to mainstream services (i.e., SSI/SSDI), and case management for all individuals exited from institutions as coordinated with the local coordinated entry system (CES).
- Referral to CES from all institutional settings.
- Provide ongoing educational transition meetings to the various settings several times a year at least six months in advance to discharge to allow preparation and potential connections to housing opportunities prior to discharge.
- Provide regular trainings for institutional settings that discharge clients, especially among staff.
- Improve the assessment instrumentation currently used to help improve placements.
- Coordinate collection of data regarding exit destinations for discharged individuals.

The OHS routinely asks for updated discharge policies from institutional settings for review by the CoC for recommendations to improve planning and eventual discharge for clients.

7. **[50220.8(b)(3)(H)] Specific and quantifiable systems improvements that the applicant will take to improve the delivery of housing and services to people experiencing homelessness or at risk of homelessness, including, but not limited to, the following:**

- (I) Capacity building and workforce development for service providers within the jurisdiction, including removing barriers to contracting with culturally specific service providers and building the capacity of providers to administer culturally specific services.

The CoC as well as the County will be focused on a number of systems improvement activities to improve the delivery of services, strengthen provider's capacity to engage in services, and improve the foundation of the CoC, the County and its collaborative structure. The CoC was allocated \$780,374.96 and the County was allocated \$728,349.96. The CoC has voted to allocate the funding for 1) capacity building and workforce development for system service providers. This will be in the form of a series of structured education and training activities to include: racial, gender, ethnic equity and cultural competency training, best practices for service delivery and activities, organizational capacity building, fund development, and governmental contract compliance, 2) a commitment to address racial disproportionality in homeless populations through the achievement of equitable provision of services and outcomes to include: a comprehensive evaluation of racial, ethnic, and gender disproportionality and cultural biases in accessing resources and services within the countywide homeless service system, and facilitating system improvements to help achieve equitable services and outcomes; 3) systems support for activities necessary to create regional partnerships and maintain a homeless services and housing delivery system to include: regional planning activities linked to systemwide coordination and service delivery improvements within each region and the region as a whole, and developing recommendations to facilitate improvements to intra-system and cross-system data collection, analysis, and resource alignment; and 4) youth set aside funding to improve youth action board involvement and developing a specific youth CES component. The County will seek to compliment activities conducted through the CoC.

- (II) Strengthening the data quality of the recipient's Homeless Management Information System.

The OHS as the HMIS provider for the County and CoC has switched its HMIS provider from Eccovia to Bit Focus/Clarity. The new provider's platform is based on Environmental Systems Research Institute (ESRI) geographic information system (GIS) technology. ESRI is located in the

city of Redlands, located within the County of San Bernardino, and as such the County has access to the platinum package of software through ESRI. The County and CoC will be able to cross reference various data sources utilized under ESRI to improve the collection of data and cross reference multiple data platforms currently not available under our current HMIS provider. This will allow OHS to develop a platform for increased data and information sharing with other software platforms such as, health care management, behavioral health and public health systems, sheriff data and law enforcement data to improve information and strengthen our local HMIS. The purpose is to be able to share information across systems, while being sensitive to data restrictions such as the Health Insurance Portability and Accountability Act (HIPAA) and personally identifiable information (PII).

- (III)** Increasing capacity for pooling and aligning housing and services funding from existing, mainstream, and new funding.

The Local Homelessness Action Plan has provided a platform for the County and CoC to take an accountability of all homeless and housing related funding. The inventory of program, funding, and resources will allow the region to align and leverage services to maximize housing and homeless services utility within the region, while avoiding and discouraging supplantation of services. Case conferencing and other services will be available through the new HMIS software, and within the next few months, OHS will begin an aggressive training to providers and agencies interested in understanding the data. The CES will be accessed through Clarity so all applicable agencies and referrals maintained in the system will be accessible to the region through the platform.

- (IV)** Improving homeless point-in-time counts.

The CoC currently utilizes a survey-based methodology to conduct the Point-In-Time Count (PITC). All 24 incorporated cities in the county conduct their own count, with the County and CoC facilitating the process. OHS uses ESRI technology to capture the data in real time and GIS map the information for trend analysis. OHS was among the first to use ESRI technology to

complete the PITC and was awarded a National Association of Counties (NaCo) award for its work in improving the collection of PITC data and ability to cross-reference this information with a vast variety of other data sets.

- (V) Improving coordinated entry systems to strengthen or streamline processes, to eliminate racial bias, to create a youth-specific coordinated entry system or youth-specific coordinated entry access points, or to improve the coordinated entry assessment tool to ensure that it contemplates the specific needs of youth experiencing homelessness.

Through the significant number of resources being made to the local jurisdiction, many more agencies and programs have been funded to provide homeless services over the past year, all with requirements to coordinate with CES. All of these agencies have to be trained in the CES protocols and how to enter data and upload documents into the CES workflow within HMIS. This also strains the capacity of CES to meet with HUD required mandates.

The CoC has engaged the HUB for Urban Initiatives to complete an annual assessment of the CES. For the past several months, our consultant Dr. Patricia Leslie, has been meeting regularly with members of the County, CoC, and the local CES provider to review the HUD mandated services a CES should provide. This is also based upon a review of the CES conducted a couple of year back with certain recommendations provided to Inland SoCal United Way 211+ (the HUD funded CES provider). The CoC has also been receiving guidance and direction from HUD technical assistance to help strengthen our local CES. A consumer survey was completed and analyzed for improvements.

The CoC and the County will be utilizing the initial disbursement award to address racial inequities within assessment tools used to prioritize services. An evaluation of the data provided by the State shows a clear difference in the length of time BIPOC communities must wait to enter into housing from their White counterparts. The County has adopted strategies to improve performance measures through the CES including outcome goals identifying improvements in the length of time from entry into a by-name list and improvements in the length of time from entry into the CES to appropriate service connections and appropriate temporary and/or

permanent housing options. This will all be improved through an equity lens, noting the various demographics of individuals and families being assisted, an analysis of the data, and process reviews conducted to continuously improve services.

8. **Response to this question is for informational purposes only** – What **information, guidance, technical assistance, training, and/or alignment of resources and programs** should Cal ICH and other State Agencies prioritize to support jurisdictions in progressing towards their Outcome Goals, Goals for Underserved Populations and Populations Disproportionately Impacted by Homelessness, and/or would otherwise help strengthen local partnerships, coordination, planning, and progress toward preventing and ending homelessness?

**Information, Guidance, and Technical Assistance**

- Facilitation of planning processes and collaborative approaches among cross-agency and community-level partners
- Technical assistance related to goal setting (generally)
- Technical assistance related to goal setting in underserved/disproportionately impacted populations
- Technical assistance related to achieving outcome goals
- Technical assistance on implementing performance-based contracting
- Trainings on topics of equity

**Alignment of Resources and Programs**

In the space below, please describe what Cal ICH and other State Agencies should prioritize related to alignment of resources and programs, strengthening partnerships and collaborations, or any other ways that State can support communities' progress:

The Southern California Continuums of Care participate as part of a regional alliance sponsored through Dr. Joe Colletti of Urban Initiatives. Such meetings may also be beneficial to Central and Northern California CoCs. I would recommend establishing regional alliances as they have been useful to Southern California CoC relations and communication.

## PART IV. HHAP-3 FUNDING PLANS AND STRATEGIC INTENT

In **TABLE 6 of the HHAP-4 Data Tables**, applicants will describe the activities they intend to support with HHAP-4 funds by providing a Funding Plan list and in **Table 7** will provide Demonstrated Need information when or Interim Housing will be supported with HHAP-4 funds. In each of these tables, applicants will include detailed information about all activities to be funded with their **entire HHAP-4 allocation** (initial and remainder disbursements combined).

1. **[50220.8(b)(3)(A)] Funding Plan Strategic Intent** - Enter your responses to this question in **Table 6** of the HHAP-4 Data Tables, adding rows as necessary.

**For each of the Eligible Use Categories intended to be supported with HHAP-4 resources, please briefly describe:**

- The activities to be supported with those resources, including the youth set-aside resources;
- How investing HHAP-4 resources into those activities represents a strategic use of HHAP-4 resources and will address needs and gaps within the jurisdiction's homelessness response system; and
- How decisions to invest HHAP-4 resources into those activities was informed by planned uses of other state, local, and/or federal funding sources within the jurisdiction (as documented in the Landscape Analysis within Part I).

**NOTE: IF you are funding an Interim Housing activity with HHAP-4 funds** (including existing interim housing), you must provide demonstrated need in **Table 7**.

**Table 6: Funding Plan Strategic Intent**

Table 6. Funding Plan Strategic Intent					
Eligible Use Category Intended to be Supported with HHAP-4	Approximate % of TOTAL HHAP-4 ALLOCATION to be used on this Eligible Use (%)	Approximate % of TOTAL HHAP-4 ALLOCATION to be used under this Eligible Use as part of the Youth Set Aside? (%)	Activities to be Supported with HHAP-4	How is this a strategic use of HHAP-4 resources that will address needs and gaps within the homelessness response system?	How were these decisions to invest HHAP-4 into these activities informed by the planned uses of other state, local, and/or federal funding sources (as documented in the Landscape Analysis in Part I)?
1. Rapid rehousing	30%	5%	Targeted Rapid Rehousing projects and supportive services	Rapid rehousing is an inexpensive and effective solution to move individuals and families who have fallen into homelessness into housing at a faster pace. Much of the funding received by the County and CoC is to provide permanent supportive housing (PSH) as is the case, RRH as is the case will complement funding already provided to the area.	Rapid rehousing has been proven an effective tool in moving individuals and families back into permanent housing. During ARRA, under the Obama Administration, rapid rehousing (RRH) was over 80% effective for placement. In addition, the San Bernardino County CoC recently conducted a cost analysis study showing the average cost to permanently house a family through RRH was approximately \$5,000 per family per year.
2. Operating subsidies	15%	2%	Capitalized operating support reserves to support housing programs that do not offer case management and operational cost for maintenance of units	Many recent housing programs for development of PSH need ongoing capitalized operating subsidy reserves to make these long-term programs viable and enticing for developers to participate with local government and the CoC. These commitments will allow programs more time to help locate additional funding for longer-term stability.	As a result of successful Homekey projects funded within the region, the long-term viability of these projects has focused the region to be proactive in investing funding to maintain PSH programs for longer periods, while providing funding that may be used in emergency situations to augment existing funds through supplementation.
3. Street outreach	8%		Street engagement and connection to resources through the CES and temporary shelter	Literally homeless individuals either lack the knowledge to effectively access mainstream and housing resources, or choose to avoid such services due to ongoing distrust in the system. Street Outreach is needed to provide the resources and education needed for the homeless community, and to establish rapport with homeless individuals and families.	San Bernardino County has been investing in a number of street outreach programs in collaboration with the local CoC. So far these programs have proved to be effective in reducing the number of individuals in known encampments and increasing access to available resources. Services such as this will reduce street homelessness.
6. Delivery of permanent housing	25%	3%	Innovative housing programs (such as development of PSH and PH)	As we have seen due to recent investments by the State of California, innovative housing development projects such as motel/hotel conversions are a fast and inexpensive way to maximize housing for the homeless in a rapid manner. Continued development of such programs will increase housing placements significantly and will align with the Governor's proposed statewide vision.	To date thousands of units have been created through innovative investments by the State of California. HHAP funding will provide more flexibility for the region to develop similar projects which will result in long-term housing investments for the region.
5. Systems support	15%		System improvements and capacity building	System improvement is continually needed to address the increase in homelessness and the successful response in lowering it throughout the region. Better understanding of data will help to improve resource access and education for homeless service providers will help to secure faster connections to services.	San Bernardino County is a region where capacity building issues have long been a problem. The James Irvine Foundation has noted San Bernardino County has one of the lowest per capita funding rates throughout the State. System improvements and capacity building investments will help to secure a better system, provision of services, and homeless service provider strengthening for the region.
10. Administrative (up to 7%)	7%		HHAP program administration for the Administrative Entity to oversee contracts and reporting to the State	The 7% of administrative costs provided to the Administrative Entity will help the agency to staff, monitor, report and process funding requests for agencies providing services.	These funds will help the Administrative Entity to oversee the funds per State requirements.
<b>Total:</b>	<b>100%</b>	<b>10%</b>			

**2. [50220.8(b)(3)(A)] Please describe how the planned investments of HHAP-4 resources and implementation of the activities to be supported will:**

- Help drive progress toward achievement of the Outcome Goals and Goals for Underserved Populations and Populations Disproportionately Impacted by Homelessness (as identified in Part II above).

Planned activities and investments will be focused on lowering rates of homelessness within the region while maximizing to the extent possible the reduction of homelessness through placement in permanent housing. It is the intent to focus on the creation of permanent housing opportunities to individuals and families in need of assistance. Over 50 percent of the funding will go to support rapid rehousing and permanent supportive housing efforts.

- Help address racial inequities and other inequities in the jurisdiction's homelessness response system.

A review of the data have shown the number of black, indigenous, people of color who are affected by either covert or overt practices that result in an over representation of members of the population in comparison to the general public. These inequities will be address as per the goals and strategies noted in the updated data tables.

- Be aligned with health and behavioral health care strategies and resources, including resources of local Medi-Cal managed care plans.

The County and the CoC have already partnered with the local County Department of Behavioral Health (DBH) for the provision of services. In fact, DBH is an active member of our outreach engagement teams and provide support to various programs such as Project Roomkey and Homekey. DBH and Community Revitalization are active in CalAIM activities and are currently partnering with the local Medi-Cal Managed Care Plans for leveraging HHIP funding with current and upcoming HHAP funds.

- Support increased exits to permanent housing among people experiencing homelessness.

The whole purpose of these funds is to help reduce homelessness within the region through the connection of individuals and families to available housing resources. The CoC has conducted an annual audit of the Coordinated Entry System to improve placements and referrals to housing resources in the region. The County and the CoC collectively will aggressively move to meet with the local goals it has established within the submitted data tables in order to meet with the expectations of the State.
